Designer Faucets-

3 year Warranty

Pressure Limitation

Valves-

5 year Warranty

Permeate

Pumps-

5 year Prorated Warranty

Our **Lifetime Warranty** remains in effect as long as you continue to have PURE WATER OF CALIFORNIA service your reverse osmosis unit on a 12 month basis. This warranty applies to the parts or equipment actually purchased from PURE WATER OF CALIFORNIA, except routine maintenance service and parts. Specific coverage details apply depending on the system purchased.

To keep the Lifetime Warranty in effect you must have PURE WATER OF CALIFORNIA perform a paid routine maintenance service on your unit at least once every 12 months. A service call to rectify a problem covered by the warranty does not constitute a yearly service unless a maintenance service is performed and billed at the normal rates at the same time.

Any lapse in yearly maintenance service or failure to purchase replacement filters or membranes/check valves as recommended by PURE WATER OF CALIFORNIA invalidates the Lifetime warranty.

To arrange for the yearly service, contact PURE WATER OF CALIFORNIA to schedule the service call appointment. You are responsible for the costs of the service call labor and the cost of replacement filters and membranes/check valves.

Failure to pay PURE WATER OF CALIFORNIA for the service call labor, filters or membranes/check valves (unless specifically negotiated otherwise) will invalidate the Lifetime warranty.

Damage caused by improper application, installation of, or abuse of the system is not covered. Warranty is limited to systems original parts and labor to repair system only. No incidental coverage is implied.

Reverse osmosis systems covered under this warranty must be operated within the manufacturer's recommendations for total dissolved solids and feed water pressure. Warranty applies to residential usage only and may be limited if used in excessive applications. Warranty covers parts and labor to repair the Reverse Osmosis System. Plugged filters are covered up to two times per year.

This warranty is extended to the original purchaser of the reverse osmosis system and is transferable, at our option, to any subsequent owner at the same location if the terms and conditions of the Lifetime Warranty have been met.

We thank you for the opportunity to serve you.
